Rev. Jan. 1995

Foreword

This publication provides selected schedules of frequently requested financial information. The information is compiled from audited financial statements sent to the Ministry in accordance with the *Municipal Act*, Municipal and Regional District Reporting Forms and other statements provided by municipal and regional district officials. All information has been reviewed and, where necessary, adapted to ensure easy comparison.

Grants and other financial assistance extended by the federal and provincial governments to local government appear in the appropriate schedules of the funds concerned, e.g., Grants for Capital Works in Schedules 5, 12 and 16; Unconditional Grants in Schedule 9; and Basic and Planning Grants in Schedule 33.

The Ministry relies on and appreciates the cooperation of local government officials and auditors in submitting financial and statistical information for this publication promptly. For 1998, acknowledgement for the earliest submission goes to the City of Penticton (Reporting Forms received March 9, 1999).

Changes to the 1998 Municipal Statistics

1. New Incorporations and Change of Municipal Classification:

   1998 The District of Wells was incorporated effective June 29, 1998.

2. The BC STATS 1998 Population Estimates used in this publication were provided in November, 1999. We continue to use these original estimates, rather than revised 1998 BC STATS Population Estimates that incorporate revisions to the 1996 Census.

3. The BC STATS population peer groups used in the charts on pages 189-205 have changed from 1997. Changed peer groups (7/8) are highlighted below:

   - ***0-899***
   - ***900-1,999***
   - ***2,000-4,199***
   - 4,200-9,999
   - ***10,000-23,999***
   - ***24,000-81,999***
   - ***82,000-399,999***
   - ***82,000+***

   Some municipalities with a population near the upper or lower limit of their peer group have been left in another population category for comparability.

4. The Resort Municipality of Whistler and the Village of Masset were unable to submit their reporting forms by the publication date. 1997 data for these municipalities has been substituted into the 1998 schedules.

Financial Reporting Forms Computerized

Data for 1998 *Municipal Statistics* was collected with computer software called Local Government Data Entry (LGDE). The Municipal Financial Services branch began the LGDE project in 1997 to automate the collection of local government financial information. The advantages to local governments in using LGDE include:

- less manual work to complete the forms each year,
- eliminates the job of typing numbers (and associated transposition problems),
- automated checks to find imbalances,
- more timely submission of data to the Ministry, and this should mean more timely production of draft and final *Municipal Statistics* information,
- capability of a future electronic interface to a local government's financial system.

We will be asking local governments to use the updated 1999 LGDE software to enter the data and submit their financial and statistical information electronically. As the collection of data using LGDE software is refined, it may be possible to provide subsets of the Reporting Form data to interested statistics users.

Supplementary Information Available

Municipal Statistics is produced using MS-Excel 5.0. Excel files are available on diskette or by email attachment for further analysis. Access our web site to get further information about municipalities and regional districts. Unpublished schedules and further information about published data is available from:

[1] The City of Vancouver had reported Property Endowment Fund (PEF) properties at assessed values rather than cost (Other Assets, col 18). Most of the equity in PEF properties is appraisal surplus from yearly property valuation. The decision to now report the value of the PEF as the sum of the fund balance plus the appropriated equity was made because Vancouver, when compared with other cities, had an unusually high amount of equity. The value the City is now reporting for the PEF is close to what the PEF would be valued if the properties were recorded at cost, which is now comparable with other cities (see Schedule 8, Footnote 1).

[1] The City of Vancouver had reported Property Endowment Fund properties at assessed values rather than cost Other Assets, Sch 7, col 18). The majority of the equity in PEF properties is appraisal surplus from yearly valuation. The decision to now report the value of the PEF as the sum of the fund balance plus the appropriated equity was made because Vancouver, when compared with other cities, had an unusually high amount of equity. The value the City is now reporting for the PEF is close to the PEF value if the properties were recorded at cost, which is now comparable with other cities reduction in 1998 Other Reserves, col 19, of $818,073,293; 1995 comparable - reduction in 1995 Other Reserves by $795,808,509). See Schedule 7, Footnote 1. The City of Vancouver line, value of Other Assets, Sch 7, col 18, is now decreased.

8. General Operating Fund Balance Sheet - Liabilities as at December 31, 1998

* The City of Vancouver has reported operating revenue decreases in 1997 due to the removal of "recoveries from other departments" from their reporting form submission.

* The Resort Municipality of Whistler and the Village of Masset were unable to submit their reporting forms by the publication date. 1997 data for these municipalities has been substituted into the 1998 schedules.

9. General Revenue for the Year Ended December 31, 1998

[1] The City of Vancouver has reported operating expenditure decreases from 1997 due to the removal of "recoveries transferred to other departments" from their reporting form submission.

[2] The Resort Municipality of Whistler and the Village of Masset were unable to submit their reporting forms by the publication date. 1997 data for these municipalities has been substituted into the 1998 schedules.

28. British Columbia Regional Districts, Corporate Name, Date of Incorporation, and Postal Address

Corporate Name	Date of Incorporation as a Regional District	Postal Address
Regional District of Alberni-Clayoquot	April 21, 1966	3008 Fifth Avenue, Port Alberni, V9Y 2E3
Regional District of Bulkley-Nechako	February 1, 1966	Box 820, Burns Lake, V0J 1E0
Capital Regional District	February 1, 1966	P.O. Drawer 1000, Victoria, V8W 2S6
Cariboo Regional District	July 9, 1968	525 Borland Street., Williams Lake, V2G 1R9
Central Coast Regional District	July 16, 1968	P.O. Box 186, Bella Coola, V0T 1C0
Regional District of Central Kootenay	November 30, 1965	601 Vernon Street, Nelson, V1L 4E9
Regional District of Central Okanagan	August 24, 1967	1450 KLO Road, Kelowna, V1W 3Z4
Columbia Shuswap Regional District	November 30, 1965	Box 978, Salmon Arm, V1E 4P1
Regional District of Comox-Strathcona	August 19, 1965	RR4 4795 Headquarters Road, Courtenay, V9N 7J3
Cowichan Valley Regional District	September 26, 1967	137 Evans Street, Duncan, V9L 1P5
Regional District of East Kootenay	November 30, 1965	19 - 24th Avenue South, Cranbrook, V1C 3H8
Fort Nelson-Liard Regional District[1]	October 31, 1987	Bag Service 399, Fort Nelson, V0C 1R0
Fraser Valley Regional District	December 12, 1995	8430 Cessna Drive, Chilliwack, V2P 7K4
Regional District of Fraser-Fort George	March 8, 1967	155 George Street, Prince George, V2L 1P8
Greater Vancouver Regional District	June 29, 1967	4330 Kingsway, Burnaby, V5H 4G8
Regional District of Kitimat-Stikine	September 14, 1967	300 - 4545 Lazelle Avenue, Terrace, V8G 4E1
Regional District of Kootenay Boundary	February 22, 1966	202 - 843 Rossland Avenue, Trail, V1R 4S8
Regional District of Mount Waddington	June 13, 1966	Box 729, Port McNeill, V0N 2R0
Regional District of Nanaimo	August 24, 1967	Box 40, Lantzville, V0R 2H0
Regional District of North Okanagan	November 9, 1965	9848 Aberdeen Road, Vernon, V1B 2K9
Regional District of Okanagan-Similkameen	March 4, 1966	101 Martin Street, Penticton, V2A 5J9
Peace River Regional District	October 31, 1987	Box 810, Dawson Creek, V1G 4H8
Powell River Regional District	December 19, 1967	5776 Marine Avenue, Powell River, V8A 2M4
Skeena-Queen Charlotte Regional District	August 17, 1967	100 First Avenue East, Prince Rupert V8J 1A6
Squamish-Lillooet Regional District	October 3, 1968	Box 219, Pemberton, V0N 2L0
Sunshine Coast Regional District	January 4, 1967	Box 800, Sechelt, V0N 3A0
Thompson-Nicola Regional District	November 24, 1967	300 - 465 Victoria Street, Kamloops, V2C 2A9

[1]Fort Nelson-Liard Regional District changed its name to Northern Rockies Regional District effective March 26, 1999.
Since the change occurred in 1999, the 1999 Municipal Statistics will reflect the name change.

[1] Includes other term indebtedness ranking as debenture debt.

[2] This publication does not include financial information for the "greater boards" which were incorporated under their own legislation predating the creation of regional districts under the Municipal Act. For comparative purposes the following table illustrates outstanding debt.

Greater Boards[3]	Outstanding Debt Dec 31, 1998
Greater Nanaimo Water District	12,558,242
Greater Vancouver Water District	256,663,178
Greater Vancouver Sewerage and Drainage District	445,653,151
Total Greater Boards	714,874,571

[3] The Greater Victoria Water District was dissolved on August 1, 1997 and its operations assumed by the Capital Regional District. However, for financial information purposes, it was not consolidated with the Capital Regional District until 1998.

59. Borrowing Power as at Decem. r 31, 1998

Regional District (1)	Taxable Assessed Value 1996 ($) (2)	1997 ($) (3)	1998 ($) (4)	Average ($) (5)	10% of Average (Villages) ($) (6)	Value of Utilities and Municipal Enterprises ($) (7)	20% of Values of Utilities and Municipal Enterprises (Villages) ($) (8)	Total Values on which Debt may be Contracted ($) (9)	Gross Borrowing Power (Villages) ($) (10)	Gross Borrowing Power (20% of Total) ($) (11)	Present Debt Less Statutory Deductions[1] ($) (12)	Net Borrowing Power ($) (13)

Combined Schedules and Charts

Using Financial Indicators

Financial indicators assess local government financial condition. They describe solvency within the context of the expenditures and resources of the community. Local governments may use Combined Schedules and Charts to compare their financial results with others. Revenues and expenditures, debt, reserves and surpluses, and taxation indicators allow comparisons among local governments of similar size and services. Benchmarks of performance and financial conditions may be developed using the following combined schedules and charts. Time series may also be used to compare current with previous years' performance. Developing a model to evaluate financial condition may involve selecting 10 or more relevant indicators for your local government. Compare them with a selection of other local governments with similar demographics and services (see Schedule 10p-General Operating Expenditures, sorted by population). You may wish to use quartiles or deciles to evaluate your results. This discussion of financial indicators makes use of the presentation made by Bill Cox of BDO Dunwoody entitled "Financial Indicators" at the 1995 Local Government Accounting and Financial Reporting Seminar.

Revenues

Own source revenues, grant revenues, and tax revenues as a proportion of total revenue shows the importance of own source revenue in relation to grants and taxation (see pp. 174-179, 197-205, Schedule 9p, Charts). A profile of the community tax base (such as the proportion of residential and non-residential taxation) may help you evaluate the ability of taxes to service debt (see pp. 138-160, Schedule 61). Municipal taxes per capita indicates the relative size of tax loads among communities (see pp. 138-160, Schedule 61).

Expenditures

Types of general operating expenditures (e.g., recreation) as a proportion of total operating expenditures can be relevant in selecting peer groups of local governments (see pp. 180-185, Schedule 10p and pp. 189-196, Charts). Expenditures per capita in general, sewer, water, and other utilities could be used to compare your community with similar sized communities in service provision (see pp. 169-172, Schedules 66 & 67). Population, area, and density (see pp.4-7, Schedule 2) plus kilometres of sewer, water main, and roads (see pp. 8-11, Schedule 3) can provide rough indicators of the extent of these services and their costs in relation to geography and settlement patterns.

Debt and Capital Assets

Debenture debt per capita compared with peers allows a rough ranking of communities by debt size (see pp. 165-168, Schedules 64 & 65). Outstanding debt as related to relative assessment determines borrowing power (see pp.124-127, Schedule 59). Debt charges as a proportion of total operating revenue shows the current cost of supporting debt (see pp. 165-168, Schedules 64 & 65).

Reserves and Surpluses

Size of surplus and reserve account balances and reserve fund balances shown as a proportion of annual operating expenditures shows the relative size of accumulated surplus in terms of yearly operations (see pp. 161-164, Schedules 62 & 63). Cash and investments as a proportion of accumulated reserves and surpluses shows their liquidity.

Further Indicators to Consider

Local governments may use their own data, collect data from other local governments, or contact Statistics Canada or BC STATS for socio-economic data. **Demographic** indicators include distribution of age groups, household sizes, and population growth rates which provide information about the need for services. Personal taxation income totals and average incomes are measures of earning potential in the community. Dependence on unemployment insurance and income assistance and the type of labour force in a community provides profiles of employment and tax base. Residential housing starts, vacancy rates, and building permits reflect growth rates. **Municipal purposes taxation** for an average single family residential home compared with local average family income is a per household gauge of the size of municipal taxes. The number of municipal employees in relation to the type and size of services offered may be used to compare with other municipalities. **Liquidity** indicators include the calculation of working capital. Taxes receivable as a proportion of taxes levied shows the size of taxes outstanding (Schedule 53, unpublished) and is also a factor in liquidity. **Maintenance costs by type of infrastructure** such as annual road repair or water pipe repair costs per kilometre are rough indicators of age and condition of tangible assets. This may be relevant to the timing of and need for capital expenditures. Capital expenditures from all funds as a proportion of total expenditures shows current capital replacement and new infrastructure.

Key to Flat Taxes and Split Rates (7 Municipalities)

Flat Taxes	**Bold**	Flat taxes are calculated by multiplying flat tax times number of applicable non-exempt residential properties on the Authenticated Roll General Taxable Values
Split Rates	*Italics*	Split rates are calculated by multiplying the land tax rates and the improvements tax rate times the applicable Authenticated Roll General Taxable values
Both Flat and Split	***Bold Italics***	Both flat taxes and split rates used.

Split Rates for 1998

Municipality	Type		Residential Tax Rate (General and Debt)	Split Rate on Residential Land	General Taxable Values Residential Land[2]	Land Taxes	Split Rate on Residential Improvements	General Taxable Values Residential Improvements[2]	Improvement Taxes	Total Split Rate Taxes
Split Rates										
Kitimat	D		(split rate)	4.33883	4,730,706	$20,526	2.42201	400,037,700	$968,895	$989,421
Total Split Rate Taxes										**$989,421**

[1] The treasurer or collector confirmed the total non-exempt residential properties in the vacant and non-vacant categories that had flat taxes levied.

[2] The treasurer or collector confirmed the general taxable values for land and improvements used in calculating split rates.

Legend

Please note that Assessments and Tax Rates are provided by other agencies such as B.C. Assessment Authority and local governments and the resulting taxes shown on this schedule are arithmetic estimates only for convenience in analysis. Taxes and proportions of taxes by class should also be regarded as estimates since assessment roll revisions, local area taxation and other provisions can affect total municipal taxation and the proportions by class in a particular municipality (see items 7, 8, and 9 below).

Definition of Report Variables

1. Municipalities are listed in alphabetic order with column 2 identifying (C)ity, (D)istrict, (T)own, or (V)illage. Column 3 indentifies the regional district where each municipality is located (see the RD Key on the next page which identifies Regional Districts by numbers from 501-531). On request, the report may be sorted by Regional District, BC STATS Population Estimates, or Municipal Taxes Per Capita.

2. Populations in column 4 are from the July 1, 1998 BC STATS Population Estimates (November, 1998)

3. Authenticated Roll Taxable Values in column 6 are for nine classes of property from the B.C. Assessment Authority March 31, 1998 Roll. Authenticated roll assessments may be slightly different than the revised roll used for the May 15 rate setting by municipalities. Therefore, actual General Municipal Purposes tax revenue may be slightly different in budgets and financial statements for the municipalities affected.

4. Total Municipal Variable Rate Taxes (column 9) are calculated by multiplying Municipal Purposes Tax Rates (column 7) by General Taxable Values (column 6) to obtain tax amounts only for municipal purposes. Taxation for Regional District services, Hospital, School and Other purposes is not included in Schedule 61. Taxes for a "municipal service" provided on a Regional District basis (e.g. regional fire protection, regional recreation centres) are not shown either. In other words, the "package of services" and what falls under the Municipal Purposes Tax Rates (column 7) may differ, resulting in differing costs and thus differing tax amounts. In addition, the service level can differ among municipalities, resulting in differing costs and thus differing municipal tax amounts.

5. Municipalities with split rates and flat taxes for 1998 require adjustments shown in column 10. The residential class appears in bold for flat taxes and italics for split rates for those municipalities. The Legend of Flat Taxes and Split Rates on the last page of Schedule 52 was used to calculate the actual Total Municipal Taxes (column 11) for those municipalities. Flat Taxes (column 10) were estimated by multiplying the flat tax by the approximate number of affected residential properties. Split Rate Taxes (column 10) for residential properties were estimated by multiplying the land rate by land general taxable values, added to the product of the improvement rate multiplied by general taxable values for improvements. There are only seven municipalities using flat taxes and only the District of Kitimat also uses split rates for 1998. Municipalities collecting residential property taxes with a flat tax consequently have lower residential variable tax rates for municipal purposes. Tax Class Multiples (col 6) for property classes 2-9 are often greatly increased as a result.

6. The City of Vancouver adjusted its assessments to those shown here in the assessment averaging process for residential and business/other classes.The City of Vancouver has ceased a residential or commercial cap on municipal property taxes as of 1998.

7. Specified area taxation (i.e. applicable only to a limited geographic area of a municipality) is not included in Schedule 61. It may, however, form a substantial additional amount of taxation in some cases. If the specified area is equal to the majority of the area of a municipality and the tax rate for that purpose appears in the annual tax rates bylaw, then that taxation amount may be included in this schedule.

8. Geographic tax limitations often result from a major boundary expansion when the tax rates applying in that new area could be less than the general municipal rate due to a cap imposed on the general municipal purpose rate (i.e. when a major industrial site is encompassed) or a phase-in to the general rate over several years (e.g. farm class or urban/rural separate rates). The authority for this differential is set out in the Supplementary Letters Patent authorizing the municipal boundary change. This feature is not reflected in this schedule, therefore some municipal figures may be overstated.

9. Certain municipalities may have an agreement with neighbouring municipalities to share taxation imposed on certain areas (especially on major industry sites). Thus the actual tax revenue kept by the originating municipality will be less, and the revenue by the receiving municipality will be more than reflected in this schedule.

10. Schedule 61 does not reflect frontage or parcel taxes for local improvements, enterprises and utilities (sewer, water), or user rates (which may be a substitute revenue source for some services such as garbage collection that may be recovered by other municipalities in whole or part as a component of the general tax levy). The City of Rossland, does however have a transportation parcel tax shown on this schedule since it forms a substantial portion of municipal purposes taxation.

11. Abbotsford and Matsqui's amalgmation effective January 1, 1995 allows by letters patent the levying of different municipal tax rates (for five years ending 1999) for Abbotsford A (Matsqui) and Abbotsord B (Abbotsford) on seperate tax rolls. Note also that Census populations for Abbotsford A & B have been estimated using 1997 BC STATS estimates brought forward proportionally to 1998.

62. Municipal Accumulated Surpluses, Reserve Accounts and Reserve Fund Balances as at December 31, 1998

[1] Total General Fund Surplus and Reserve Accounts Col 7) = Sch 8, Col 20 + Cols 17, 18, 19.

[2] Total Utilities Funds Surplus and Reserve Accounts Col 10) = Sch 13, Cols 19, 18 + Sch 17, Cols 19, 18 + Sch 21, Cols 19, 18.

[3] Total Statutory Reserve Fund Balances Col 14) = Sch 23, Cols 13, 12, 11.

** The value Vancouver reported in General Fund Reserve Accounts col 6) was mostly the Property Endowment Fund. This value is reported close to the PEF value if the properties were recorded at cost, which is now comparable with other cities. See Schedule 8, Footnote 1 on page 34 for details.

Legend

This schedule shows the accumulated surplus from municipal operations. Reserves for future expenditures or reserve accounts are one method of appropriating those surpluses for particular purposes. Accumulated surplus plus appropriated surplus in reserve accounts are combined to provide accumulated operating surplus in Column 11. Balances in statutory reserve funds are included in this schedule in Column 14 to provide information about capital reserve funds that municipalities have set aside by bylaw. These funds are appropriated for particular capital purposes as described under the Municipal Act (except s.499 special reserve funds). Total Surpluses, Reserve Accounts and Reserve Fund Balances in Column 15 sums Columns 7, 10 and 14. Cash and Investments from all operating funds in Column 16 (Sch 7, Cols 2, 13 + Sch 13, Col 2, 5 + Sch 17, Cols 2, 5 + Sch 21, Cols 2, 5) and reserve funds in Column 17 (Sch 23, Cols 2, 5) are there to provide a comparison with the accumulated operating surpluses and reserve fund balances. Please note that Columns 16 and 17 do not reflect associated payables and receivables.

Total Operating Funds Surplus and Reserve Accounts (Col 11) and Total Statutory Reserve Fund Balances (Col 14) are graphed in Figure 2 (see pp. 189-196) as a proportion of Net Operating Expenditure (Sch 66, Col 14). Municipalities were sorted in population order and seven peer groups selected to display the results.

[1] Total General Fund Surplus and Reserve Accounts (Col 5) = Sch 32, Cols 21 (Surplus), portion of Col 20 (Reserve Accounts).

[2] Total Utilities Funds Surplus and Reserve Accounts (Col 8) = Sch 37, Col 16 (Surplus), portion of Col 15 (Reserve Accounts) + Sch 41, Col 18 (Surplus), portion of Col 15 (Reserve Accounts) + Sch 45, Col 16, portion of Col 15.

[3] Total Statutory Reserve Fund Balances (Col 12) = Sch 47, Col 12 (DCCs), Col 11 (Feasibility), Col 13 (Other).

Legend

This schedule shows the accumulated surplus from regional district operations. Reserves for future expenditures or reserve accounts are one method of appropriating those surpluses for particular purposes. Accumulated surplus plus appropriated surplus in reserve accounts are combined to provide accumulated operating surplus in Column 9 (which sums Columns 4 + 6 + 7). Balances in statutory reserve funds are included in Column 12 (which sums Columns 10 + 11) to provide information about capital reserve funds that regional districts have set aside by bylaw. These funds are appropriated for particular capital purposes as described under the Municipal Act (except s.826 special reserve funds). Total Surpluses, Reserve Accounts and Reserve Fund Balances in Column 13 sums Columns 5, 8 and 12.

Cash and Investments from all operating funds in Column 14 (Sch 32, Cols 2, 6 + Sch 37, Cols 2, 5 + Sch 41, Cols 2, 5 + Sch 45, Cols 2, 5) and reserve funds in Column 15 (Sch 47, Cols 2, 5) are there to provide a comparison with the accumulated operating surpluses and reserve fund balances. Please note that Columns 14 and 15 do not reflect associated payables and receivables.

64. Municipal Capital Tangible Assets and Related Debenture Debt for All Capital Funds as at December 31, 1998

[1] Total Debenture Debt Charges Col 17) includes Interest on Debenture and Other Long-term Debt, Principal Installments or Sinking Fund Reqs, and Other Debt Charges less the related portion of Sewer and Water Facilities Assistance Grants.
Col 17 = Sch 10, Cols 16, 17, 18 + Sch 14, Cols 17, 18, 19 minus portion of Col 8 Fac. Gr.) + Sch 18, Cols 18, 19, 20 minus portion of Col 8 Fac. Gr.)+ Sch 22, Cols 18, 19, 20. Debt charges exclude Interest on Temporary Borrowing.

[2] Municipal Taxes includes municipal purpose variable rate taxes for nine property classes, special assessments such as sewer/water frontage and parcel taxes or specified area levies, and business/other taxes. It excludes the regional district levy.
Municipal Taxes = Sch 9, Col 6 minus Sch 10, portion of Col 24 Regional District Taxes).

[3] Total Net Operating Revenue includes total operating revenue less taxes collected for other govts and utilities taxes and funding, and less Sewer and Water Facilities Assistance Grants provided by the Ministry for debt purposes Sch 68, Col 9).
Total Net Operating Revenue = Sch 9, Col 25 minus Sch 10, portion of Col 22 Transfer to Utility Operating Funds) minus Sch 10, portion of Col 24 Transfer to Regional District))
plus Sch 14, Col 11 minus portion of Col 8 Fac. Gr.)) plus Sch 18, Col 11 minus portion of Col 8 Fac. Gr.)) + Sch 22, Col 11.

Legend

This schedule shows capital tangible assets and related debenture debt from all capital funds in each municipality. Total Tangible Assets (Col 13) sums tangible assets for each capital fund in Columns 5 + 7 + 9 + 11 and is equal to tangible assets on capital balance sheets (Sch 4, Col 7 + Sch 11, Col 7 + Sch 15, Col 7 + Sch 19, Col 7). Debenture debt includes authorized debt that is issued through Municipal Finance Authority, by the regional district, or by the municipality (including short-term capital borrowing). Total Debenture Debt (Col 14) sums Columns 6 + 8 + 10 + 12 and is equal to Total Debenture Debt Outstanding in Schedule 55, Column 12 (taken from capital balance sheets Sch 4, Cols 16, 17, 18 + Sch 11, Cols 15, 16, 17 + Sch 15, Cols 15, 16, 17 + Sch 19, Cols 15, 16, 17). Tangible assets and debenture debt are shown adjacent to each other to provide the option of comparing the size of debt relative to tangible assets among municipalities.

Total Debenture Debt Charges (Col 17) are shown as a proportion of municipal taxes in Column 18 and as a proportion of total net operating revenue in Column 19 to gauge how much of current year tax revenue and total net revenue is used for debenture debt charges. Debt Charges as % of Total Net Operating Revenue (Col 19) are not comparable to 1992 or 1993 results since total revenue now excludes utilities taxes and funding and the regional district levy. Total Net Revenue (used in Col 19) also excludes Sewer and Water Facilities Assistance Grants (Schs 14, 18, Col 8) provided by the Ministry for debt purposes. Total Debenture Debt Charges (Col 17) also excludes the related municipal debt charges covered by Sewer and Water Facilities Assistance Grants (Schs 14, 18, portions of Col 8).

Total Debenture Debt Charges are graphed in Figure 3 (see pp. 190-196) as a proportion of Total Net Operating Revenue (Sch 66, Col 9 minus Facilities Grants). Municipalities were sorted in population order and seven peer groups were selected to display the results.

[1] Total Debenture Debt Charges Col 15) includes Interest on Debenture and Other Long-term Debt, Principal Installments or Sinking Fund Reqs, and Other Debt Charges less the related portion of Sewer and Water Facilities Assistance Grants Col 15 = Sch 34, Cols 9, 11, 13 plus Sch 38, Cols 17, 18, 19 minus portion of Col 8 Facilities Grants) + Sch 42, Cols 18, 19, 20 minus portion of Col 8 Facilities Grants) + Sch 46, Cols 18, 19, 20

[2] Total Net Operating Revenue Col 16) is total operating revenue less members' debt payments and utilities taxes/funding, less previous surplus/reserves, and less Sewer and Water Facilities Assistance Grants provided for debt purposes Col 16 = Sch 33, Col 15 minus Sch 34, Cols 10, 12, 14 and minus Sch 34, portion of Col 18 Transfers to Utilities) + Sch 38, Col 11 minus portion of Col 8 Facilities Grants)) + Sch 42, Col 11 minus portion of Col 8) + Sch 46, Col 11

[3] The Greater Victoria Water District was dissolved on August 1, 1997 and its operations assumed by the Capital Regional District.

Legend

This schedule shows capital tangible assets and related debenture debt from all capital funds in each regional district. Total Tangible Assets (Col 11) sums tangible assets for each capital fund in Columns 3 + 5 + 7 + 9 and is equal to tangible assets on capital balance sheets (Sch 29, Col 7 + Sch 35, Col 7 + Sch 39, Col 7 + Sch 43, Col 7).

Regional District debenture debt includes authorized debt issued by the end of the year but does not include members' debt (issued for municipalities). Debenture debt does include debt issued for regional services in which municipalities participate. Debenture debt may include debt issued by the regional district (including short-term capital borrowing) and debt issued through Municipal Finance Authority. Total Debenture Debt (Col 12) sums debt for each capital fund in Columns 4 + 6 + 8 + 10 and is equal to Total Debenture Debt Outstanding in Schedule 56, Column 4.

Total Debenture Debt Charges (Col 15) are shown as a proportion of Total Net Operating Revenue (Col 16) in Column 17 to gauge how much of total net revenue is used for debenture debt charges. Total Debenture Debt Charges (Col 15) is less the related debt charges covered by the Sewer and Water Facilities Assistance Grants (Schs 38, 42, portion of Col 8) provided by the Ministry for debt purposes. Total Net Operating Revenue (Col 16) also excludes the the amount of Sewer and Water Facilities Assistance Grants.

66. Municipal Net Operating Revenue and Expenditures for the Year 1998

Municipality	Type	RD#	July 1, 1998 BC STATS Population Estimates	Net Operating Funds Revenue: Net General Operating Revenue (less Taxes Collected for Other Govts and Utilities Taxes/Funding[1])	Net Operating Funds Revenue: Sewer Operating Revenue	Net Operating Funds Revenue: Water Operating Revenue	Net Operating Funds Revenue: Other Utility Operating Revenue	Net Operating Funds Revenue: Total Net Operating Revenue[2]	Net Operating Funds Expenditures (Excludes Surplus and Transfers to Reserve Accounts): Net General Operating Expenditures (less Transfers of Taxes for Other Govts and Transfers to Utilities)	Net Operating Funds Expenditures (Excludes Surplus and Transfers to Reserve Accounts): Net Sewer Operating Expenditures	Net Operating Funds Expenditures (Excludes Surplus and Transfers to Reserve Accounts): Net Water Operating Expenditures	Net Operating Funds Expenditures (Excludes Surplus and Transfers to Reserve Accounts): Net Other Utility Operating Expenditures	Net Operating Funds Expenditures (Excludes Surplus and Transfers to Reserve Accounts): Total Net Operating Expenditures[2]	Operating Expenditures Per Capita

[1] Net General Operating Revenue Col 5) includes general operating revenue less taxes collected for other govts, less transfers to sewer, water, other utilities operating funds parcel, frontage, other taxes plus general funding) Col 5 = Sch 9, Col 30 minus Cols 27, 26 minus Sch 10, portion of Col 22 Transfer to Utilities). Transfers of utility taxes and general funding of utilities are subtracted since they are already shown in utility revenue Cols 6, 7, 8)

[2] Total Net Operating Revenue Col 9) includes general operating revenue less taxes collected for other govts, less transfers to utilities operating funds of utilities taxes and funding, plus sewer, water, other operating revenue Col 9 = Sch 9, Col 30 minus Cols 27, 26 minus Sch 10, portion of Col 22 Transfers to Utilities) + Sch 14, Col 11 + Sch 18, Col 11 + Sch 22, Col 11.

[3] Total Net Operating Expenditures Col 14) includes general operating expenditures less surplus and reserve accounts, less transfers of taxes levied for other govts, and less transfers to utility operating funds plus sewer operating expenditures less surplus and reserve accounts, plus water operating expenditures less surplus and reserve accounts, plus other utility operating expenditures less surplus and reserve accounts. Col 14 = Sch 10, Col 26 minus Col 19, portion of Col 22 Transfers to Utilities) + Sch 14, Col 25 minus Col 24, portion of Col 21 Reserve Accts) + Sch 18, Col 26 minus Col 25, portion of Col 22 + Sch 22, Col 26 minus Col 25, portion of Col 22.

Legend

Schedule 66 has been slightly changed from the 1992 *Municipal Statistics* by subtracting transfers to utility operating funds from Total Net Operating Revenue (Col 9) and Total Net Operating Expenditures (Col 14). If you need to compare Schedule 66 (or Sch 64, Col 19) with 1992 results, please contact Municipal Financial Services for revised 1992 schedules.

Total Net Operating Revenue (Col 9) sums operating funds revenue from Columns 5 + 6 + 7 + 8. Total revenue subtracts taxes collected for other governments and sewer, water and other utility taxes plus any funding of utilities by general operating. Total Net Operating Revenue may be used to compare the size of total debt charges or total taxes.

Total Net Operating Expenditures (Col 14) sums operating expenditures from Columns 10 + 11 + 12 + 13. Total expenditure subtracts surpluses and transfers to reserve accounts, transfers of taxes collected for other governments, and transfers to sewer, water, and other utilities of parcel, frontage or other taxes plus general funding of utilities. The size of total operating expenditures and fund expenditures (Cols 10, 11, 12, 13) may be considered in selecting peers. Consult Schedule 10p to select municipalities in a population range and with the appropriate size and type of general operating expenditures. Factors such as density (e.g., Districts versus Cities), settlement patterns, and service preferences affect municipal expenditures. Operating Expenditures Per Capita (Col 15) expresses operating expenditures as divided by BC STATS populations so different sizes of municipalities may be compared.

+ Sch 46, Col 26 minus Col 25 minus portion of Col 24 Reserve Accounts).

[4] The Greater Victoria Water District was dissolved on August 1, 1997 and its operations assumed by the Capital Regional District.

Legend

Total Net Operating Revenue (Col 7) above is not equivalent to Municipal Total Net Operating Revenue (Sch 66, Col 9) since transfers from previous surplus and reserve accounts are excluded from regional district operating revenue. Excluding previous surplus and reserve accounts from net operating revenue should allow for better comparability of current revenue since regional districts often bring all of previous years' surplus into current revenue. Total Net Operating Revenue (Col 7) is also not equal to Total Net Operating Revenue (Sch 65,Col 16) which excludes Facilities Assistance Grants to be comparable with total debenture debt charges (Sch 65, Col 15) which also excludes Facilities Assistance Grants. Total Net Operating Revenue (Col 7) sums operating funds revenue from Columns 3 + 4 + 5 + 6. Total revenue excludes taxes collected for other governments and sewer, water and other utility taxes plus any funding of utilities by general operating. Total Net Operating Revenue may be used to compare the size of total debt charges or total taxes.

Total Net Operating Expenditures (Col 12) sums operating expenditures from Columns 8 + 9 + 10 + 11. Total expenditure excludes surpluses and transfers to reserve accounts, members' debt payments and transfers to sewer, water, and other utilities of parcel, frontage or other taxes plus funding of utility operating funds. The size of total operating expenditures and fund expenditures (Cols 8, 9, 10, 11) may be considered in selecting peers. Consult Schedule 34 to select regional districts with the appropriate size and type of general operating expenditures. Factors such as population, settlement patterns, level of urbanization, and service preferences of both electoral areas and municipalities affect regional district expenditures. Operating Expenditures Per Capita (Col 13) expresses operating expenditures as

Legend

General Operating Revenue (Sch 9p) was created by adding municipal type (Col 2), RD# (Col 3, see Key below), and BC STATS Population Estimates (Col 4) to Schedule 9 (pp. 36-43). Collections for Other Governments (School Taxes, Other Taxes in Cols 26, 27) were removed from Schedule 9. Municipalities were sorted by population to provide general operating revenue in order of population size. General operating revenues were totaled into seven categories (see p. 197) and used to create Figure 4, *Sources of General Operating Revenue for 1998* (pp. 198-205) shown in seven peer groups. Schedule 9p with Figure 4 may be used to select municipalities of comparable population (Col 4), type (Col 2), and tax revenue (Col 9). Proportions of revenue from taxation, own sources, grants, and previous years' surplus may be evaluated in comparison with other municipalities of similar population and general operating revenue.

Legend

General Operating Expenditures (Sch 10p) was created by adding municipal type (Col 2), RD# (Col 3, see Key below), and BC STATS population estimates (Col 4) to Schedule 10 (pp. 44-51). Transmission of Taxes Levied for Other Governments (School-Residential and Non-residential, Referendum, Other in Cols 27, 28, 29) were removed from Schedule 10. Municipalities were sorted by population to provide general operating expenditures in population order. General operating expenditures were totaled into seven categories (see p. 197) and used to create Figure 5, *Types of General Operating Expenditure for 1998* (pp. 198-205) shown in seven peer groups. Schedule 9p with Figure 5 may be used to select municipalities of comparable population (Col 4), type (Col 2), and general operating expenditure (Col 31). The relative size of operating expenditures may be evaluated for general gov't (Cols 5,6,7), policing (Col 8), fire (Col 9), transportation (Col 11), environmental and public health (Col 12, 13, 14, 15), environmental development (Col 16), recreation and culture (Col 17), debt charges (Cols 18, 19, 20, 21), and transfers to own funds and other governments (Cols 22, 23, 24, 25, 26, 27, 28).

Legend for B.C. Municipal Purposes Taxes* by Property Class 1993-1999

This chart is developed using estimates of individual municipal purposes taxes totalled by property class for all B.C. municipalities. Schedule 61 (pp. 138-160) presents the method and results of these estimates for each municipality. Please note that Assessments and Tax Rates are provided by other agencies such as B.C. Assessment and Local Governments and the resulting taxes are estimates only for convenience in analysis. Taxes and proportions of taxes by class should be regarded as estimates since Assessment Roll revisions and Local Area Taxation can affect total taxation and the proportions by class in a particular municipality.

Definition of Variables

1. Authenticated Roll Taxable Values for nine classes of property are from B.C. Assessment March 31 Roll. Authenticated roll assessments may be slightly different than the revised roll used for the May 15 rate setting by municipalities. Actual General Municipal Purposes tax revenue may be slightly different in budgets and financial statements for municipalities with roll revisions.

2. Total Municipal Variable Rate Taxes (Sch 61, Col 9) are calculated by multiplying Residential Municipal Purposes Tax Rate (Sch 61, Col 7) by Residential General Taxable Values (Sch 61, Col 6) to obtain a residential tax amount only for municipal purposes. Taxation for Regional District services, Hospital, School and Other purposes is not included in Schedule 61. Taxes for a "municipal service" provided on a Regional District basis (e.g. regional fire protection, regional recreation centres) are not shown either. In other words, the "package of services" and that which falls under the Municipal Purposes Tax Rate (Sch 61, Col 7) may differ, resulting in differing costs and thus differing tax amounts. In addition, municipalities have different levels of service resulting in differing costs and differing municipal tax amounts.

3. Municipalities with split rates and flat taxes have calculated amounts for flat and split rate taxes included in the Total Municipal Taxes-Residential class (Sch 61, Col 11, p 138).

4. The City of Vancouver also instituted a residential or commercial cap on municipal property taxes for several years up to 1998. This cap is not reflected in Figure 1. The City of Vancouver also adjusted its tax rates in the assessment averaging process for residential and business/other classes. Assessment averaging is reflected in the Taxable Values used for Figure 1.

5. Specified area taxation (i.e. applicable only to a limited geographic area of a municipality) is not included in Figure 1, *B.C. Municipal Purposes Taxes by Property Class 1993-1999*. It may, however, form a substantial additional amount of taxation in some cases. If the specified area is equal to the majority of the area of a municipality and the tax rate for that purpose appears in the annual tax rates bylaw, then that taxation amount may be included in this schedule.

6. Geographic tax limitations often result from a major boundary expansion when the tax rates applying in that new area could be less than the general municipal rate due to a cap imposed on the general municipal purpose rate (i.e. when a major industrial site is encompassed) or a phase in to the general rate over several years (e.g. farm class or urban/rural separate rates). The authority for this differential is set out in the Supplementary Letters Patent authorizing the municipal boundary change. This feature is not reflected in this schedule, therefore some municipal figures may be overstated.

7. Figure 1 does not reflect frontage or parcel taxes for local improvements, enterprises and utilities (sewer, water), or user rates (which may be a substitute revenue source for some services such as garbage collection that may be recovered by other municipalities in whole or part as a component of the general tax levy).

8. Figure 1 also illustrates subsequent year taxation (1999) which has been calculated on the same basis.

Figure 1 B.C. Municipal Purposes Taxes* by Property Class 1993-1999

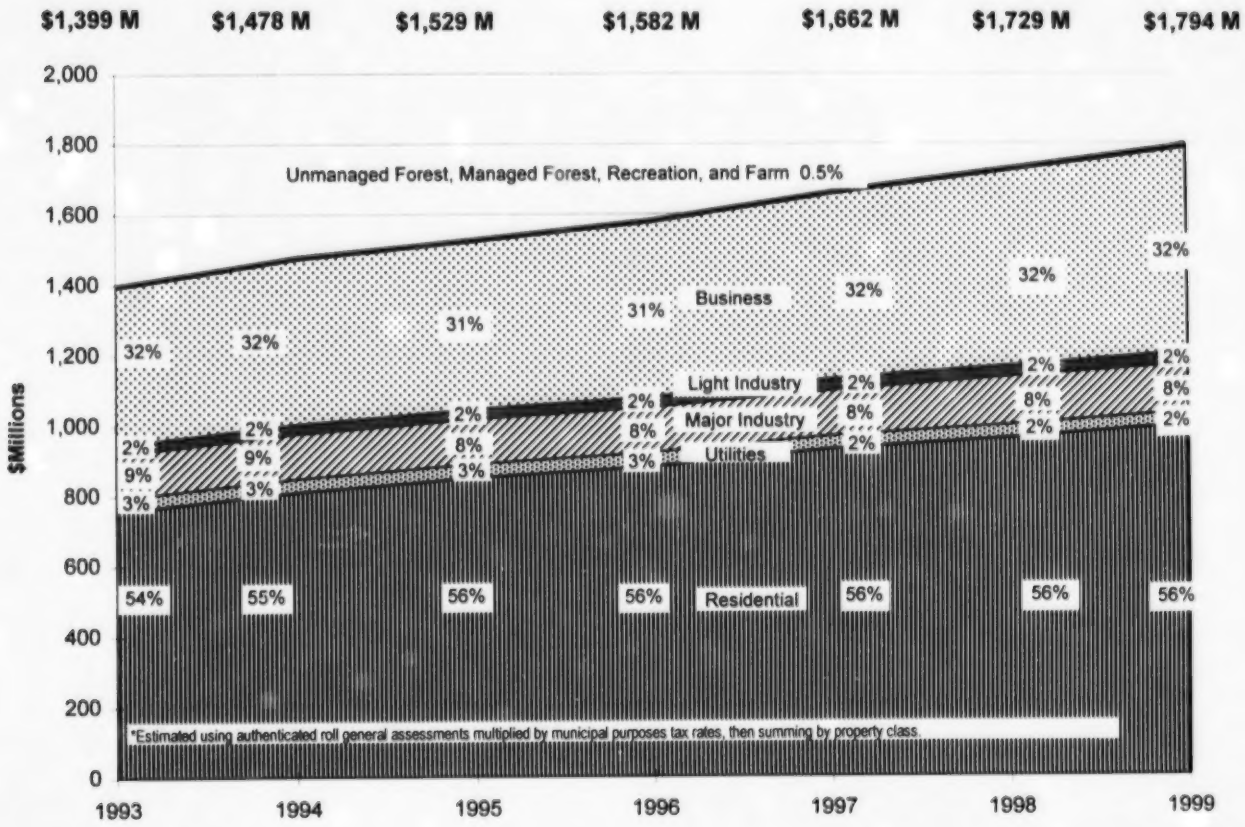

Figure 2 Accumulated Surpluses, Reserves & Reserve Funds as a % of 1998 Net Operating Funds Expenditure

Accumulated surpluses from municipal operations are presented as a proportion of current expenditure in the Figure 2 series of charts following (pp. 190-196). The intent of presenting surpluses graphically is to provide a method of comparing the relative size of individual municipal surpluses. The height of the vertical bars gives an impression of surpluses, reserve accounts, and reserve funds in relation to current operating funds expenditure. Reserve accounts (reserves for future expenditures) are one method of appropriating surpluses. Accumulated surplus plus appropriated surplus in reserve accounts for all operating funds are shown as the lighter gray on the chart bars. Balances in statutory reserve funds represent another method of setting aside reserves by bylaw so they may only be appropriated for particular capital expenditures (or other authorized purposes). Statutory reserve fund balances are shown as the darker gray on the chart bars. The charts following are graphed from Municipal Accumulated Surpluses and Reserves (Sch 62, Cols 11, 14 on pages 161-163) and shown as proportions of Total Net Operating Expenditures (Sch 66, Col 14 on pages 169-171).

Chart Variable	Explanation	Sch Ref
Accumulated Surpluses	accumulated surplus - all operating funds balance sheets	Sch 62,Cols 5,8
Reserves (Reserve Acc'ts)	reserves for future expenditures - all operating funds balance sheets	Sch 62,Cols 6,9
Surplus & Reserves	accumulated surpluses and reserve accounts - all operating funds	Sch 62,Col 11
Reserve Funds	equity of all statutory reserve funds - reserve funds balance sheet	Sch 62,Col 14
Net Operating Funds Expenditure	all operating funds expenditure less transfers to surplus, reserve accounts, utilities from general, transfer of taxes levied for other gov'ts	Sch 66,Col 14
BC STATS Population	BC STATS population estimates issued Nov, 1998 (see black triangles)	Sch 62,Col 4
Peer Groups	municipalities were sorted by population into 7 peer groups	Schs 9p,10p

Figure 3 Debt Charges All Operating Funds as a % of 1998 Net Operating Funds Revenue

Total debenture debt charges are shown as a proportion of total net operating revenue in the Figure 3 series of charts following (pp. 190-196). Debt charges represent the cost to service all debenture debt outstanding of each municipality for the current year. The height of the bar indicates how much of current year net operating funds revenue is used for debenture debt charges. Debenture debt charges exclude related municipal debt charges covered by Sewer and Water Facilities Assistance Grants. Net operating revenue also excludes Sewer and Water Facilities Assistance Grants. The charts are graphed from Municipal Capital Tangible Assets and Related Debenture Debt (Sch 64, Col 19) on pages 165-167. Debenture debt charges (Sch 64, Col 17) are shown as a proportion of net operating revenue minus Facilities Assistance Grants (Sch 66, Col 14 on pages 169-171) less Sch 14, portion of Col 8 on pages 52-59 less Sch 18, portion of Col 8 on pages 60-67.

Chart Variable	Explanation	Sch Ref
Debt Charges	debenture debt charges includes interest on debenture/other long-term debt, principal installments, other debt charges from all operating funds	Sch 64,Col 17
Net Operating Funds Revenue	all operating funds revenue less utilities taxes and funding, transfers of taxes collected for other gov'ts, Sewer/Water Facilities Assistance Grants	Sch 66,Col 14 less Facilities Gr.
BC STATS Population	BC STATS population estimates issued Nov, 1998 (see black triangles)	Sch 64,Col 4
Peer Groups	municipalities were sorted by population into 7 peer groups	Schs 9p,10p

Accumulated surpluses, reserve accounts and reserve funds and debenture debt charges are graphed on the same page which permits fast visual inspection of both measures. Debt charges represent previous debt funding for capital expenditures. Surpluses and reserve accounts indicate funding that may be available for future expenditures. Reserve fund balances shows funding available for future capital expenditures or other authorized purposes.

Figure 4 Sources of General Operating Revenue for 1998

Categories of general operating revenue are presented in a vertical bar representing total net operating revenue in the Figure 4 series of charts following (pp. 198-205). The size of general operating revenue (less taxes collected for other governments) for each municipality equals the height of its revenue bar. Graphical presentation provides a visual method of comparing the relative size of general revenue sources among similar municipalities. Proportions of taxation, own source, and grant revenues may be considered in evaluating municipal financing. These charts are graphed from Schedule 9p with each revenue category shown as a layer (see pp. 174-179).

Chart Variable	Explanation	Sch Ref
PrevSurplus	surplus from previous years, transfer from reserve accounts	Sch 9p, Cols 30,29
OtherFunds	transfers from other funds - reserve funds; sewer, water, other utility operating/capital funds; trust funds, general capital fund	Sch 9p, Col 27
Grants	unconditional transfers from provincial gov'ts, from other gov'ts conditional transfers from federal gov't/agencies, provincial gov't, agencies, and regional and other local gov'ts	Sch 9p, Cols 21,22 Cols 23,24,25 Col 26
OwnSources	revenues from own sources - licences and permits, fines, rentals/concessions/franchises, other (return on investments, tax penalties)	Sch 9p, Cols 17,18 Cols 19,20
SalesServices	sales of services - general gov't, protective, transportation, garbage, other environmental health, public health, environmental dev't, rec/cultural, other	Sch 9p, Col 16
ServOthGov'ts	services (e.g., recreational) provided federal, provincial, regional/local gov'ts	Sch 9p, Col 13,14,15
Taxes/GIL	taxes - real property, special assessments (frontage/parcel), business, other grants-in-lieu of taxes from federal, provincial, other gov'ts and agencies	Sch 9p, Cols 5,6,7,8 Cols10,11,12
BCStats Pop'n	BC STATS population estimates issued Nov, 1998 (see black triangles)	Sch 9p, Col 4
Peer Groups	municipalities were sorted by population into 7 peer groups	Sch 9p

Figure 5 Types of General Operating Expenditure for 1998

Categories of general operating expenditures are presented in a vertical bar representing total net operating expenditure in the Figure 5 series of charts following (pp. 198-205). The size of general operating expenditure (less transfer of taxes levied for other governments less surplus and transfer to reserve accounts for each municipality) is the height of its revenue bar. Factors such as density, settlement patterns, geography, and service preferences affect municipal expenditures. Evaluating the relative size of general expenditure types among municipalities of a population range may assist in the selection of comparables. These charts are graphed from Schedule 10p, with each expenditure category shown as a layer (see pp. 180-185).

Chart Variable	Explanation	Sch Ref
OwnFunds/RD	transfers to general capital fund, reserve funds (not to reserve accounts) other funds (utility capital funds, trust funds) and utility operating funds, uncond. transfers to regional/other gov'ts, cond. transfers to regional districts, and other fiscal services	Sch 10p, Cols 23,24 Col 25 Col 26,27 Col 28
DebtCharges	interest on temporary borrowing, interest on debenture/long-term debt, principal installments/sinking fund, other debt charges	Sch 10p, Cols18,19 Cols 20,21
Rec'n'Culture	recreation facilities, cultural buildings, other recreational/cultural services	Sch 10p, Col 17
Environment	environmental health - garbage/waste collection and disposal, other public health, social welfare, environmental development services	Sch 10p, Cols 12,13 Cols 14,15,16
Transportation	workshops/yards/buildings; road admin, engineering, roads and streets; municipal airports and services; water transport; other transportation	Sch 10p, Col 11
Protective	police protection, law enforcement, corrections, fire protection, emergency measures and other protection	Sch 10p, Col 8 Cols 9,10
Gen'lGov't	legislative (council stipends and expenses), general administration, other	Sch 10p, Cols 5,6,7
BCStats Pop'n	BC STATS population estimates issued Nov, 1998 (see black triangles)	Sch 10p, Col 4
Peer Groups	municipalities were sorted by population into 7 peer groups	Sch 10p

Categories of general operating revenue and expenditures are presented on the same page so that both can be evaluated visually in a population peer group.
